## SUMMARY

---

Full Stack Engineer skilled in Next.js, Node.js, and PostgreSQL, with experience building and deploying production-ready web applications. Strong in API design, authentication, database modeling, and writing scalable, maintainable code.

## EDUCATION

---

### Bachelor of Technology in CSE

Baderia Global Institute of Engineering and Management · Jabalpur, MP · 2026 · 7.95 CGPA

### 12th Grade

MP-Board · 2023 · 87%

## EXPERIENCE

---

### Frontend Developer

#### Freelancing

January 2026 - Present, Remote

- Developed a real-time analytics dashboard with interactive charts and advanced filtering, improving data interpretation speed by **35%**.
- Built dynamic product and seller pages with reusable chart components, reducing code redundancy by **25%**.
- Optimized rendering performance using efficient state management, decreasing load time by **30%**.
- Tech Stack - React, Tailwind CSS, Rechart.js, Figma.

## PROJECT

---

### ScreenBoard - Real Time Collaborative Canvas

[screenboard-grayvercel.app/](#) · October 2025 - February 2026

- Built a full-stack real-time canvas web app using Next.js, Express.js, and PostgreSQL with room-based interactive sessions.
- Developed RESTful APIs with JWT authentication, Zod validation, and optimized database management using Prisma ORM.
- Enabled real-time sync via WebSockets and containerized the application using Docker in a scalable monorepo setup.

### Netflix Analyzer

August 2025 - September 2025

- Built a full-stack web application enabling users to search, filter, and compare Netflix titles based on ratings, revenue, genre, and cast.
- Integrated interactive data visualizations using ChartJS for statistical insights and trend analysis.
- Designed RESTful APIs and optimized data querying using ExpressJS and MongoDB to ensure efficient performance.

## SKILLS

---

Front End: Next.js, React.js, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3

Back End: Node.js, Express.js, REST APIs, WebSockets, JWT Authentication, Zod Validation

Database: MongoDB, PostgreSQL, Prisma ORM

DevOps & Tools: Docker, Git, GitHub, Monorepo Architecture, Postman, Vercel, Render

## CERTIFICATIONS

---

### NPTEL C++ Certified (Elite)

IIT Kharagpur · 2025

### CS50x Certificate

Harvard University · 2025

## EXTRA-CURRICULAR

---

### Selected Member

Baderia Global Institute of Engineering and Management · Social Responsibility Club · November 2023 - Present

- Conducted on-campus computer literacy sessions for 200+ underprivileged children, teaching foundational digital and technical skills.
- Visited rural government schools to educate 100+ students on basic computer operations and technology awareness.

## LANGUAGES

---

Hindi, English, Italian
